Onderwerp: RE: No update NCOVVAC file the Netherlands

Dear [REDACTED],

Thank you for this information. We will take this into account for our next TESSy upload, which will be when the legal reasons of getting our data are resolved (probably half October).

With kind regards,
[REDACTED]

ECDC NORMAL

Dear [REDACTED],

This is just a kind follow-up regarding the new updates in the reporting protocol and metadata. The NCOVVACC metadata has been now updated with a few new vaccine products:

CAN = CanSino - Convidecia
COMBA.1= Comirnaty – Pfizer/BioNTech Original/Omicron BA.1
COMBA.4-5= Comirnaty – Pfizer/BioNTech Original/Omicron BA.4-5
MODBA.1 = Spikevax bivalent Original/Omicron BA.1 - Moderna
MODBA.4-5 = Spikevax Moderna bivalent Original/Omicron BA.4-5
VLA = COVID-19 Vaccine (inactivated, adjuvanted) Valneva – Valneva
ZIF = Anhui ZL - Zifivax

However, due to technical reasons a new variable “DoseAdditional3” would be added by the end of this week.

We will disseminate an updated COVID-19 reporting protocol among the member states, as well as will make it available in TESSy, by the end of this week/beginning of the next.

Thank you for your collaboration!

With kind regards,
[REDACTED]

Deal [REDACTED],

Thank you for your quick response. We are looking forward to the new reporting protocol.

With kind regards,
[REDACTED]

Dear [REDACTED],

Thank you for informing us!
We are working on adding a variable "DoseAdditional3" in the COVID-19 vaccinations reporting protocol and will share it with MS once it's finalized.

With kind regards,
[REDACTED]

Dear colleagues,

We want to inform you that we unfortunately can not upload our vaccination data to TESSy this week and probably for a longer period of time. The reason is that we do not get the vaccination data due to legal reasons.
We hope that the problem is solved around the third week of October.

Besides, in the Netherlands a new vaccination campaign started from this Monday. It is possible that persons received three vaccinations in addition to their primary series. There is no field in TESSy for this vaccination yet. When will it be possible to report the third additional dose?

All the best,
[REDACTED]
